Internship

Concise is a boutique consultancy that delivers business and marketing strategy support to major companies across Asia-Pacific.

We are currently seeking an ambitious, proactive intern for 8–12 weeks to provide support on a high-profile strategy engagement for one of our biggest clients. The internship is unpaid but expenses will be covered. We would look to offer a full-time contract at the end of the internship should it be deemed a success.

Concise works on a wide variety of projects that provide a range of business challenges. Therefore the role will be ideal for a pro-active, flexible, and organised individual who is looking for a career in consultancy.

You must understand the basics of business, possess commercial acumen, have an entrepreneurial streak and be willing to learn in a dynamic small company environment.

Excellent communication skills in English are essential and we are especially interested in interns with Asian language experience.
